Burns' Features Were Coarse.

Regarding the description of Robert Burns, Scott says his features have been unduly refined by his portraits. Burns was about the average height and of heavy build, with features inclined to coarseness. Numerous observers have commented on the extraordinary glow in his eyes. "I never saw such another eye," says Scott, "in any human head."

The Colonial Dame
Spun her cloth
By candle flame.

In 1880

In Grinoline bright,
She greeted her guests
By Coal Oil light.

And later on,

How time does pass
Her home was lit
By flickering Gas.

But the girl of to-day
Who wants her home bright,
Just presses a button
And has Electric Light.

Escape the "Stout" Class
An attractive figure is not a matter of size but of correct proportions. The stout women who are never spoken of as "stout" are those who give a little time and thought to proper corseting.

Rengo Belt Reducing Corsets give the wearer an appearance of slenderness. The exclusive Rengo Belt feature gives strength and support where the greatest strain falls—over the abdomen and hips. They have the reputation of being "the most economical reducing corsets ever devised."
